INTRODUCTION

The center sector scheme "**Timely Reporting Scheme**" is being implemented in the state since 1972-73 which aims to arrive at quick and reliable Estimates of area under Principal Crops. District wise area under selected principal crops has been estimated based on the data from sample villages for all the three seasons during the year which constitute 20 percent of total villages. The present publication provides district-wise precise and advance estimates of area under Principal Crops as worked out by the two methods of estimation namely Ratio and Un-biased methods.

Sample supervision of Patwari records was also carried out through checking of area enumeration and page totals of Khasra Registers. The findings of the same help to find out the differences between the area figures reported by the Patwaries and as observed by the Supervisors.

I hope that this publication will be useful to all those who have interest in the agricultural development of the state.

REPORT ON TIMELY REPORTING SCHEME FOR AREA ESTIMATES ON PRINCIPAL CROPS IN RAJASTHAN 2024-25

1. INTRODUCTION:

The Timely Reporting Scheme (TRS) sponsored by Government of India is being implemented in the State since 1972-73. Under the scheme, it is intended to arrive at quick, reliable and accurate estimates of area immediately after the sowing of principal crops at the end of each agricultural season viz. Kharif, Rabi and Zaid Rabi in the State on the basis of actual area enumeration in the selected twenty percent villages through sample survey. These estimates serve the Government to assess agricultural prospects during the current year and to take quick policy measures relating to agricultural production, imports and exports of the agricultural commodities.

2. OBJECTIVES:

The main objectives of the scheme are:

(a) To obtain reliable and statistically precise estimates of area under principal crops immediately after sowing;

(b) To build estimates of area under principal crops for irrigated and un-irrigated categories separately;

(c) To build estimates of area under traditional and high yielding /hybrid varieties of crops separately.

3. COVERAGE: The agricultural year in the State covering the period from 1st July 2024 to 30th June 2025 is divided into three seasons viz; Kharif, Rabi and Zaid Rabi. Season-wise main crops reported are as follows:

S Season	Crops Covered
(a) Kharif	Rice, Jowar, Bajra, Maize, Cotton, Tur, Sesamum, Castor seed, Sugarcane, Soyabean and Groundnut
(b) Rabi	Wheat, Barley, Gram, Rape Seed & Mustard, Taramira and Linseed
(c) Zaid Rabi	Jowar, Bajra, Maize, Moong, Chaula, Fruits & Vegetables, Graundnut, Tobacco, Small millets, Spices and Fodder.

In Ganganagar and Hanumangarh districts, one additional crop namely Toria is grown during Zaid Kharif season.

4. PERIOD OF CROP

ENUMERATION: In the Land Record Manual, provision has been made for advancement of Girdawari by 15 days, for the villages selected

under Timely Reporting Scheme. The time schedule for crop enumeration prescribed for Patwaris in TRS villages in each agricultural season was as follows:

SEASON	CROP ENUMERATION PERIOD
1. Kharif	01 st to 08 th September 2024;
2. Rabi	16 th to 23 rd January 2025;
3. Zaid Rabi	01 st to 10 th May 2025

5. SAMPLING DESIGN: For the survey, 20 percent villages in each tehsil in each agricultural year are selected by adopting linear systematic sampling method treating each tehsil as a stratum. For selection of villages, all the villages in each district are arranged according to tehsil, I.L.R. Circle and Patwar Circle in a random order respectively for preparing a sampling frame to select the sampling unit.

The selection of 20 percent sample villages in each district is made by systematic sampling technique from the sampling frame stated above with an interval of five sample units and with a different random start adopting non-over-lapping sampling procedure. Sample villages, thus, selected separately for each district are being used as one set for each year starting from the year 2022-23, covering all the villages in the State in five years i.e. by the year 2026-27. This report is based on the

data collected in the third set of villages in the year 2024-25 i.e. third year of the round.

6. SAMPLE SIZE: In 2024-25, 9,705 villages were selected across the State. These villages were retained for all the seasons for area enumeration.

7. ORGANISATION: The survey was organized by the Directorate of Economics and Statistics through its staff posted under the scheme at State, District and Block level. The field work was assigned to the Patwaries of the Revenue Department. In order to improve the quality of field work and to study the type of mistakes committed by the Patwaries, supervision of field work was entrusted to National Statistical Office, besides, the District level Statistical Officers (JD/DD) and their staff under the Improvement of crop statistics (I.C.S.) scheme.

8. TRAINING: The Joint Director/Deputy Director at the district level imparted training to the Office Kanungos and Inspectors of Land Records regarding the procedures for area enumeration and reporting of crop acreage in the prescribed girdawari forms. Subsequently, the trained officers imparted the same training to the Patwaries in their respective tehsils for implementation of the scheme. During the year, such trainings were conducted along with the Crop Estimation Survey trainings at the district headquarters in August 2024 and January 2025 for the Kharif and Rabi seasons, respectively

9. FORMS FOR REPORTING AREA: Separate forms were prescribed for all the three seasons for reporting the area under crops, irrigated and un- irrigated for both the current as well as last year for the selected villages along with the instructions for filling them. The prescribed form of area enumeration has been divided into two sections. The first section relates to the general identification particulars of the villages. The second section is meant for recording the irrigated and un-irrigated area under individual crops for both the current and last year in hectares up to four decimal places. The Patwaries were

also required to record the relevant conversion factors from local units of measurement to hectares.

10. COLLECTION AND COMPILATION OF DATA: The Tehsildars were instructed to convene meetings of the Patwaries immediately after completion of the field work and to collect all the duly filled-in schedules for onward transmission to the Block Statistical Office. The schedules so received were scrutinized at the Block Statistical Office, and the data were entered on the TRS web portal immediately after the collection of the TRS schedules

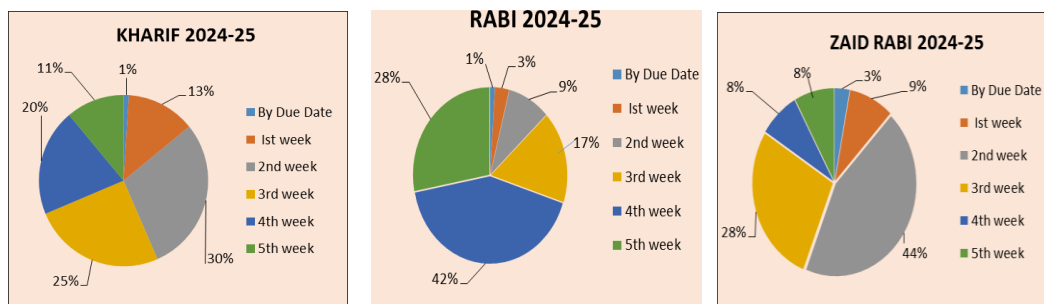

11. RESPONSE: The title of the scheme i.e. Timely Reporting Scheme (TRS), signifies that all activities under the scheme are strictly time-bound. Total 9,705 villages in the State were selected under the scheme for undertaking the survey in each agricultural season. Out of which, 9,299, 9,049, and 9,499 duly filled-in schedules were received during the Kharif, Rabi, and Zaid Rabi seasons, respectively, representing response rates of 95.82 per cent, 93.24 per cent, and 97.88 per cent.

The details of filled-in-schedules received by the due date and those received after the due date but within the subsequent weeks are presented below:

Response Position of filled-in-schedules at Different Time Lags

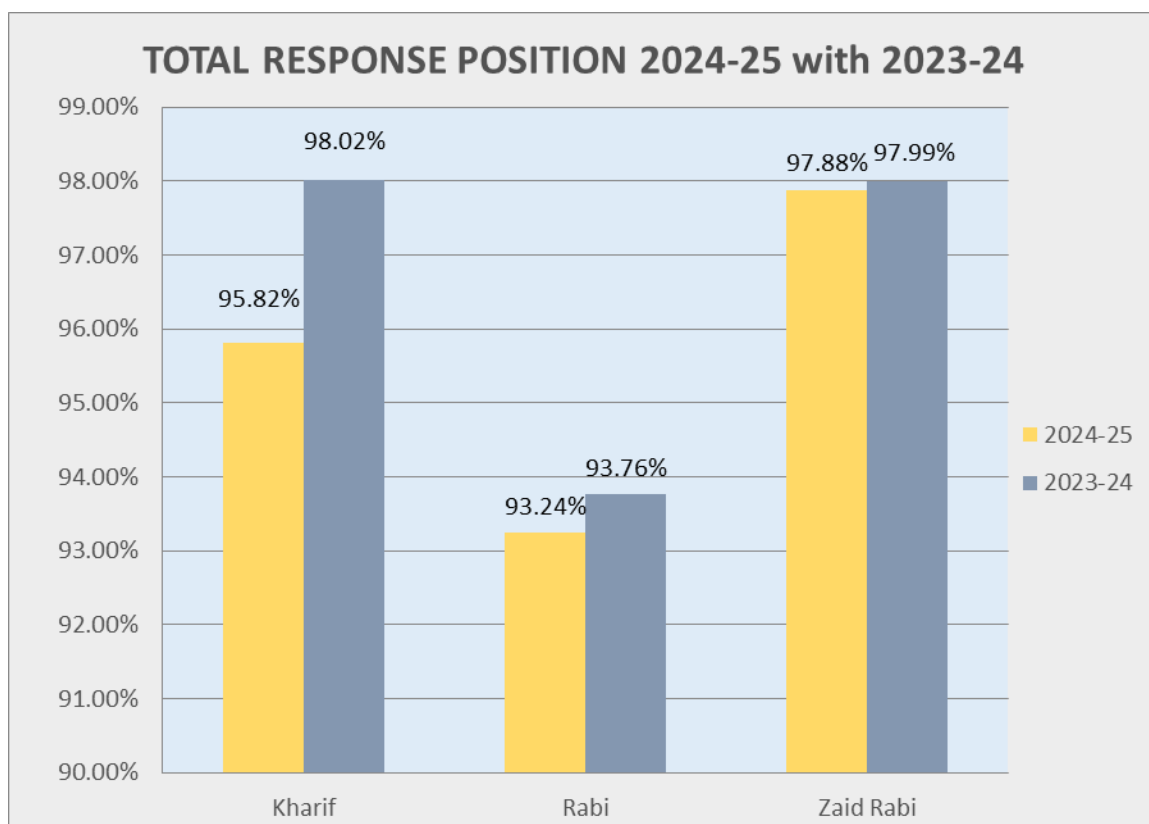

S.No.	Particulars	Kharif	Rabi	Zaid Rabi

Response Position of filled-in-schedules at Different Time lags

It may be observed from the above table and charts that the response rate in the submission of duly filled-in schedules during the Kharif, Rabi, and Zaid Rabi seasons of the year 2024–25 was comparatively

lower than that recorded during the corresponding seasons of the year 2023–24. The district-wise position of receipt of filled-in schedules for the selected villages is presented in Appendix-I.

12. SUBMISSION OF AREA ESTIMATES: The due and actual date of sending the area estimates are given below:

on the basis of information collected under the high yielding varieties of the crops. State level estimates of area are given as follows:

16.	Taramira	6.57	8.13
17.	Linseed	17.46	9.98

Above results of sampling error reveal that the estimates of area are within the tolerance limits. There are crop Linseed where sampling error was found more than 10 percent. The District-wise and Crop-wise percentage sampling error

for Kharif and Rabi seasons are given in Appendix-20 and 21.

16. SUPERVISION: To obtain precise estimates of area of principal crops sown in each season and to improve the quality/reliability of the field data collected, sample check

of area enumeration and aggregations were conducted by the technical staff of the National Statistical Office and State Statistical Agency in the selected villages in each season.

Out of the 20 percent villages selected for Timely Reporting Scheme, a sub-sample of 300 non-overlapping villages each for State Statistical staff (state sample) and National Statistical Office staff (central sample) were drawn for supervision. The selection of villages was done by N.S.O. The supervision was conducted just after the prescribed TRS area enumeration period and carried out in a month time after the due date for submission of the TRS statements.

The supervision carried out was related to (i) sample check on area enumeration and (ii) checking of page totals of Khasra register.

Under the sample check on area enumeration, physical verification of crops sown as reported by patwaries was done in four clusters each of five survey numbers in each selected village. The supervisors verified :-

- (a) Area of crop reported,
- (b) Identification of crop sown,
- (C) Irrigation status and,
- (d) Use of high yielding varieties.

Findings were recorded in inspection schedule A.S. 1.0. Page totals of Khasra register were also checked to find out the discrepancies between the entries of area under land use as reported by patwaries and those obtained by supervisors through simple totaling of the area figures in the Khasra register were recorded in inspection schedule A.S. 1.1. The details of supervision are as follows:

Number of village allotted and supervised

S.No.	Agency	Season	Number of Villages			
			Inspection Schedule A.S.1.0		Inspection Schedule A.S.1.1	
			Allotted	Supervised	Allotted	Supervised
1	2	3	4	5	6	7
1.	State Statistical Officials	Kharif	300	300	300	300
		Rabi	300	300	300	300
2.	Central (NSO) Statistical Officials	Kharif	300	300	-	-
		Rabi	300	300	-	-

The District-wise details of supervision done by State Agriculture Statistical Authority (SASA) and National Statistical Office are given in Appendix-26.

17. RESULT OF SUPERVISION:

A study of the inspection schedules help to find out the extent of differences between the area figures reported by patwaries and as observed by supervisors. On the basis of above ratio i.e. supervisor entries over patwari entries were calculated both for sample check on area enumeration based on schedules A.S.1.0 and page totals of

Khasra register based on schedule A.S.1.1 for each district and crop separately for the state, central and pooled samples.

The district-wise and crop-wise variations found on the basis on these inspection schedules are given in Appendix 22 to 25. These variations at the State level are given below:
