INTRODUCTION

The center sector scheme “**Timely Reporting Scheme**” is being implemented in the state since 1972-73 which aims to arrive at quick and reliable Estimates of Area under Principal Crops . District wise area under selected principal crops has been estimated based on the data from sample villages for all the three seasons during the year which constitute 20 percent of total villages. The present publication provides district-wise precise and advance estimates of area under principal crops as worked out by the two methods of estimation namely Ratio and Un-biased methods.

Sample supervision of Patwari records was also carried out through checking of area enumeration and page totals of Khasra Registers. The findings of the same help to find out the differences between the area figures reported by the Patwaris and as observed by the Supervisors.

REPORT ON TIMELY REPORTING SCHEME FOR AREA ESTIMATE ON PRINCIPAL CROPS IN RAJASTHAN 2018-19

1. INTRODUCTION: The Timely Reporting Scheme (TRS) sponsored by Government of India is being implemented in the State since 1972-73. Under the scheme, it is intended to arrive at quick, reliable and accurate estimates of area immediately after the sowing of principal crops at the end of each agricultural season viz. Kharif, Rabi and Zaid Rabi in the State on the basis of actual area enumeration in the selected twenty percent villages through sample survey. These estimates serve the Government to assess agricultural prospects during the current year and to take quick policy measures relating to agricultural production, imports and exports of the agricultural commodities.

2.OBJECTIVES:

The main objectives of the scheme are:

(a) To obtain reliable and statistically precise estimates of area under principal crops immediately after sowing;

(b) To build estimates of area under principal crops for irrigated and un-irrigated categories separately;

(c) To build estimates of area under traditional and high yielding /hybrid varieties of crops separately.

3. COVERAGE: The agricultural year in the State covering the period from 1st July 2018 to 30th June 2019 is divided into four seasons viz; Kharif, Rabi and Zaid Rabi. Season-wise main crops reported are as follows:

Season	Crops Covered
(a) Kharif	Rice, Jowar, Bajra, Maize, Cotton, Tur, Sesamum, Castorseed, Sugarcane, Soyabean and Groundnut,
(b) Rabi	Wheat, Barley, Gram, Rape Seed & Mustard, Taramira and Linseed
(c) Zaid Rabi	Jowar, Bajra, Gram, Urad, Moong, Moth, chaula, Fruits & Vegetables, Tobacco, Small millets, Spices and Fodder.

In Ganganagar and Hanumangarh districts, one additional crop namely Toria is grown during Zaid Kharif season.

4. PERIOD OF CROP

ENUMERATION: In the Land Record Manual, provision has been made for advancement of Girdawari by 15 days, for the villages selected

under Timely Reporting Scheme. The time schedule for crop enumeration prescribed for Patwaris in TRS villages in each agricultural season was as follows:

SEASON	CROP ENUMERATION PERIOD
1. Kharif	01 st to 08 th September 2018;
2. Zaid Kharif	01 st to 15 th January 2019;
3. Rabi	16 th to 23 rd January 2019 and
4. Zaid Rabi	01 st to 10 th May 2019

5. SAMPLING DESIGN: For the survey, 20 percent villages in each tehsil in each agricultural year are selected by adopting linear systematic sampling method treating each tehsil as a stratum. For selection of villages, all the villages in each district are arranged according to tehsil, I.L.R. Circle and Patwar Circle in a random order respectively for preparing a sampling frame to select the sampling unit.

The selection of 20 percent sample villages in each district is made by systematic sampling technique from the sampling frame stated above with an interval of five sample units and with a different random start adopting non-over-lapping sampling procedure. Sample villages, thus, selected separately for each district are being used as one set for each year starting from the year 2017-18, covering all the villages in the State in five years i.e. By the year 2018 -19. This report is based on the data collected in the second set of

villages in the year 2018-19 i.e. second year of the round.

6. SAMPLE SIZE: In 2018-19, 9,506 villages were selected across the State. These villages were retained for all the seasons for area enumeration.

7. ORGANISATION: The survey was organized by the Directorate of Economics and Statistics through its staff posted under the scheme at State, District and Block level. The fieldwork was assigned to the Patwaries of the Revenue Department. In order to improve the quality of field work and to study the type of mistakes committed by the Patwaries, supervision of field work was entrusted to National Sample Survey Office, besides, the District level Statistical Officers (DD/AD) and their staff under the Improvement of crop statistics (I.C.S.) scheme.

8. TRAINING: The Deputy Director or Assistant Director in the district was responsible for imparting training to Office Kanungos and Inspector of Land Records regarding the procedure to be followed in the area enumeration work and reporting the crop acreage in prescribed girdawari forms. In turn they imparted the training to the Patwaries in their respective tehsils for the work pertaining to this scheme. During the year, the trainings were organised alongwith the crop estimation survey trainings at district headquarters in the month of August 2018 and January, 2019 for Kharif and Rabi season respectively.

9. FORMS FOR REPORTING AREA: Separate forms were prescribed for all the three seasons for reporting the area under crops, irrigated and un- irrigated for both the current as well as last year for the selected villages along with the instructions for filling them. The prescribed form of area enumeration has been divided into two sections. The first section relates to the general identification particulars of the villages. The second section is meant for recording the irrigated and un irrigated area under individual crops for both the current

and last year in hectares up to four decimal places. Patwaries are also required to record the conversion factor from local units to hectares.

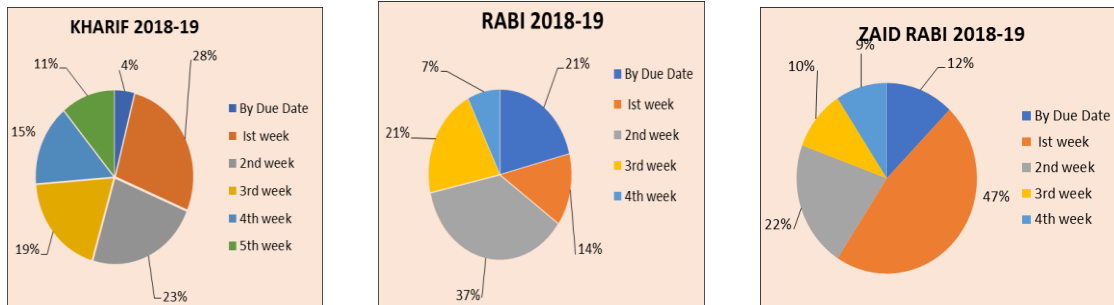

10. COLLECTION AND COMPILATION OF DATA: The Tehsildars were instructed to hold the meeting of the Patwaries immediately after the completion of the field work and collect all the filled-in-schedules for onward transmission to the Block Statistical office. These schedules were scrutinized and data entered on TRS web Portal immediately after collection of TRS schedules at block statistical office.

11. RESPONSE: The title of the scheme i.e. Timely Reporting Scheme it self signifies that the activities of the scheme are time bound. Total 9,506 villages in the State were selected under this scheme for undertaking the study in each season. Out of which, 9321, 9073, and 8843 filled-in-schedules were received in Kharif, Rabi and Zaid Rabi season which was 98.05, 95.44 and 93.03 percent response respectively. The details of filled-in-schedules received by due date and those received after due date but within subsequent weeks are given below:

The variation in estimates of area prepared under Timely Reporting Scheme i.e. by Ratio and Unbiased method as compared to area enumeration given in final forecast is largely within 10 percent of variation except for crop Taramira. District-wise estimates of area under principal crops are given in Appendix 2 to 18.

14. ESTIMATES OF AREA UNDER HIGH YIELDING VARIETIES:

The estimates of area under high yielding varieties were also prepared on the basis of information collected under the high yielding varieties of the crops. State level estimates of area are given as follows:

Area under High Yielding Varieties

(Area in '00 Hectares)

S.No	Crop	Ratio Estimates			Unbiased Estimates		
		Irrigated	Un-irrigated	Total	Irrigated	Un-irrigated	Total

Percentage Sampling Error

Season	S.No.	Crop	Percentage Sampling Error	
			Ratio Estimates	Unbiased Estimates
Kharif:	1.	Rice	1.80	3.36

	16.	Taramira	8.62	7.75
	17.	Linseed	14.82	18.82

Above results of sampling error reveal that the estimates of area are within the tolerance limits except for crop Linseed Where sampling error is found more than 10 percent. The District-wise and Crop-wise percentage sampling error for Kharif and Rabi seasons are given in Appendix-20 and 21.

16. SUPERVISION: To obtain precise estimates of area of principal crops sown in each season and to improve the quality/reliability of the field data

collected, sample checks of area enumeration and aggregations were conducted by the technical staff of the National Sample Survey Organization and State Statistical Agency in the selected villages in each season.

Out of the 20 percent villages selected for Timely Reporting Scheme, a sub-sample of 300 non-overlapping villages each for State Statistical staff (state sample) and National Sample Survey Organization staff (central sample) were drawn for supervision. The selection of villages was done by N.S.S.O. office. The supervision was conducted just after the prescribed TRS area enumeration period and carried out in a month time after the due date for submission of the TRS statements.

The supervision carried out was related to (i) sample check on area

enumeration and (ii) checking of page totals of Khasra register. Under the sample check on area enumeration, physical verification of crops sown as reported by patwaries was done in four clusters each of five survey numbers in each selected village. The supervisors verified (a) Area of crop reported, (b) Identification of crop sown, (c) Irrigation status and (d) Use of high yielding varieties.

Findings were recorded in inspection schedule A.S. 1.0. Page totals of Khasra register were also checked to find out the discrepancies between the entries of area under land use as reported by patwaries and those obtained by supervisors through simple totaling of the area figures in the Khasra register were recorded in inspection schedule A.S. 1.1. The details of supervision are as follows:

Number of village allotted and supervised

S.No.	Agency	Season	Number of Villages			
			Inspection Schedule A.S.1.0		Inspection Schedule A.S.1.1	
			Allotted	Supervised	Allotted	Supervised
1	2	3	4	5	6	7
1.	State Statistical Officials	Kharif Rabi	300 300	300 300	300 300	300 300
2.	Central (NSSO) Statistical Officials	Kharif Rabi	300 300	300 300	- -	- -

The District-wise details of supervision done by State Agriculture Statistical Authority (SASA) and National Sample Survey Office are given in Appendix-26.

17. RESULT OF SUPERVISION:

A study of the inspection schedules help to find out the extent of differences between the area figures reported by patwaries and as observed by supervisors. On the basis of above ratio i.e. supervisor entries over patwari entries were calculated both for sample check on area enumeration based on schedules A.S.1.0 and page totals of Khasra register based on schedule

A.S.1.1 for each district and crop separately for the state, central and pooled samples.

The district-wise and crop-wise variations found on the basis on these inspection schedules are given in Appendix 22 to 25. These variations at the State level are given below:
